Hogs Close Steady.

NATIVE CATLLE-It was a very quiet Saturday in the native division, the receipts comprising a mixed load of cattle that was held over for text week, as no buyers sought supplies, and, wing to the mean close of the market, no effort was made to dispose of them. The Friday's marthere has been but little demand for expert steers, the conditions of the market were such that a decline was inevitable, and the loss on the heavy, finished good to choice steers was 5075°c and extremes as much as 40°c, while hardler weights did not enfar as much, declining about 20°c.

The batcher market has ruled in sympathy with the best trade, and a decline of 1525°c was in force, the most being shown on heiters. Calves have ruled a stable stronger, with camers about steady and buils 1597°c lower.

But few cattle had been offered in the stocker.

New York, May 23.—Cotton futures closed very steady; May 11.50c; June 11.18c; July 11.50c; Aug. 10.70c; Sept. 9.73c; Oct. 9.41c; Nov. 9.75c; Dec. 9.75c; Jan. 9.25c. Spot cotton closed gulet, 5 points lower, middling uplands 15c; middling Gulf 11.75c, sales, 255 bales. The substitute tendency of specialtion in the cotton market here yesterday was reflected in Liverpool this morning, where price changes were narrow, that market closing unchanged to 2 points lower. Wet weather, port receipts still running heavy and accounts from the dry goods trade no more favorable, the market influences apparently favored the bears. The market opened at a decline of 256 points on the list generally while May, still dominated by its speculative position, was 6 points higher. Trading was very quiet, and three seemed to be liftle disposition to sell at the decline. After a brief interval of irregularity the bull leaders bought moderately, and railled prices to about last night's final. During the later trading prices continued to show a generally upward tendency, under supporting orders and some European buying, while warehouses reported Southern business on the advance. Speculation continued comparatively quiet, however. July sold up to 11.05c, Aug. to 11.0c. Than the list turned easier underrealizing, but was finally very steady, net 3 to 25 points higher on all months but May, which closed at 12 points lower. The sales were reported 3 50c; ordinary 9, 15c; good ordinary Sales 30c; ordinary 9, 15c; good ordinary By Telegraph.

New York, May 22.—Weol strong; domestic fleece 285416.
London, May 23.—The third series of the weol acction sales closed to-day. The offerings number \$615 baies. The demand was good, and crossbreds sold at the highest prices of the series. Merinos, while firm, sold occasionally below the best. The series opened with a 5-per-cent all-vance and gained an additional 75-per cent later. Toward the close prices eased slightly, owing to a falline off in the foreign demand. Fine crossbreds closed unclanged from the March average medium crossbreds were 19259 per cent higher. Cape of Good Hone and Natal whites were unchanged to 5-per cent up, and greasy and medium scoureds advanced 5-per cent. During the series \$9.000 baies were taken by the home trade, \$5.00 by the Continent, 5.000 by America, and 29.000 were held over for the fourth series. STATEMENT OF BANK AVERAGES.

New York Institutions Show Decrease of \$1,326,000 in Cash. New York, May 14.—The statement of averages of the clearing-house banks of this city for the week shows: Loans, 1923,483,190, decrease, \$5,478,-100; deposits, \$914.61,100; decrease, \$6,224.400; cir-culation, \$44,294,000; decrease, \$65,500; legal ten-ders, \$71,871,500; increase, \$1428,400; specie, \$168,-002,000, decrease, \$2,754,400; reserve, \$217,975,100; decrease, \$1,225,000; reserve required, \$225,602,775, decrease, \$1,555,100; surplus, \$0,227,725, increase, \$200,100; ex. U. S. dep. \$15,515,075, increase, \$220,100;

The Financier this week says: The official statement of the New York Associated Banks hat week showed a net decrease of \$1,25,000 in cash, instead of an increase of \$1,25,000 in cash, instead of an increase of \$1,25,000 in cash, instead of an increase of \$1,25,000 which was estimated on the basis of the traceable movements of more during the week. The discrepency was doubliess largely due to the average system of the clearing-nouse, which brought into last week more than \$1,00,000 of the loss of cash resulting from the withdrawal on May Is of \$1,250,000 gold for export to South America, and probably some portion of the \$1,00,000 which will be shipped to that destination on Monday, was withdrawn at the end of the bank week.

The shown by the discension and has say the safe of the same and has say the statement, and has say the safe of the same has a well as by those which will remain in the clearing-house, and which have not already made provisions for the required cash reserved, against deposit. The loans, contrary to the general expectations, were decreased; instead of increased, the reduction being \$1,45,000. This was most likely the result of the extensive liquidation in the sfock market during the week. The deposits were reduced by \$1,22,400, or \$517,700 less than the amount called for by the decrease in loans and the net loss of cash, therefore, the statement did not harmonize. The required reserve was lessened by \$1,504,000, and, deducting from this sum the net loss of cash, leaves \$230,000 increase in surplus reserve to \$1,272,240, 400 of public funds, the surplus is \$13,504,000. And the small state of \$6,000 in the pasts of deposits, less those of \$1,740,400 of public funds, the surplus is \$13,504,000. And and the only important increase was \$2,40,000 and the only important that they shall maintain a minimum cash reserve o hist week showed a net decrease of \$1,325,000 in
